Dearly beloved Mr. Mark McCrindle, President,
Australian Leadership Foundation, Australia.

Hearty greetings to you all. I count this opportunity write to you now. By your gracious support and financial help we are all feeling happy and doing a great work in our areas.

As usual we are conducting medical clinics in different villages. One medical campaign conducted by us at Zadaru tribal village. In that village and surrounding villages many tribal people are suffering with Malaria fever and viral fever. So we conducted a medical campaign and helped nearly 214 poor tribal people and distributed some breads etc;.

The Orphanage we run is making a big difference in the young lives of over 30 children. In addition we are caring for the growing numbers of old people. The support of The Australian Leadership Foundation is helping beyond what you can ever know.

When I read your letter my heart filled with a great joy. Thanks for your encouraging words. We are looking forward to your visit.

Thanking you all,

Rev.George Mason,
India. .
